OBJECTIVE

Seeking a challenging position industry where I can utilize my skill to contribute to the success of the company.

EXPERIENCE

Projects:

- Some basic games
- Voice Assistant with Face Recognition: The voice assistant helps users by completing commands given by them, such as searching anything on Google, setting alarms, searching on YouTube, opening apps, and many more tasks. Moreover, the assistant operates using a face recognition system for security purposes.
- RAG (Retrieval-Augmented Generation) Evaluation System: Designed and implemented a system to evaluate RAG-based models.
- Quora Duplicate Question Detection: Built a machine learning model to detect duplicate question pairs
- E-Commerce Website
- Office Assistant System(not completed yet): The assistant will track employee data, including working hours, overtime, days present, and days absent using a face recognition system. Based on this stored data, employees will receive their salary at the end of the month, and everything will be done automatically.

WORK

- Data Science Intern at Sabudh Foundation

INTREST

- Artificial Intelligence
- Machine Learning
- Data Science

EDUCATION

B. Tech in Computer Science and Engineering (2023-present)

- Guru Nanak Dev University , Amritsar , Punjab
- CG (7.00/10.00 (avg till now))

H.S.C in Science (2020)

- Lions School and College , Rangpur , Bangladesh
- GPA(5.00/5.00)

LANGUAGE

- English
- Bengali
- Hindi
